AFAQ RIYADA SOLUTIONS

آفاق الريادة للحلول

Engineering solutions. Focused on your application.

Specialized equipment, industrial products and technical support for projects and plant operations.

WATER & WASTEWATER

INDUSTRIAL & PROCESS

Amman, Jordan · afaqriyada.com

THE COMPANY

Technical understanding.

International technologies. Local coordination in Jordan.

Afaq Riyada Solutions is an Amman-based supplier of specialized mechanical equipment and industrial products. We help clients translate application requirements into suitable equipment selections, supported by manufacturer coordination and clear technical and commercial follow-up.

01

Water & Wastewater

Surge protection, fluid transfer, valves and instrumentation for pumping, treatment and network applications.

02

Industrial & Process

Sealing, fluid handling, steam systems, drives, conveying and filtration for production and plant utilities.

Support from requirement to supply

01

Define

Review the application, operating conditions and scope.

02

Select

Coordinate equipment selection and technical clarification.

03

Supply

Align the offer, documentation and delivery requirements.

04

Support

Maintain follow-up with the client and manufacturer.

Built around your application

Equipment selection considers process media, pressure, temperature, materials, maintainability and project specifications.

TECHNOLOGY PORTFOLIO / WATER & WASTEWATER

Water. Pressure. Flow.

Surge protection, fluid transfer, valves and measurement technologies.

HENRIQUES & HENRIQUES

PORTUGAL

Surge vessels & pressure equipment

Manufacturer of metal tanks and pressure equipment for water and environmental applications.

- Surge vessels with bladder
- Surge vessels without bladder
- Water storage tanks
- Filters for water and gas treatment

www.heh.pt

KOBOLD

GERMANY

Measurement & control

Instruments for monitoring, measuring and regulating flow, pressure, level and temperature.

- Flow meters, indicators and sensors
- Level switches and indicators
- Pressure gauges and transmitters
- Temperature sensors and switches

www.kobold.com

GEMÜ

GERMANY

Valves & control systems

Valve, measurement and control technologies for liquids, vapours and gases.

- Diaphragm valves
- Ball, butterfly and globe valves
- Control valves and positioners
- Flow and pressure measurement

www.gemu-group.com

LUTZ

GERMANY

Drum & container pumps

Pump systems for transferring and filling liquids from drums, containers and process installations.

- Drum and container pumps
- IBC container pumps
- Eccentric screw and diaphragm pumps
- Flow meters and centrifugal pumps

www.lutz-pumpen.de

TECHNOLOGY PORTFOLIO / INDUSTRIAL & PROCESS

Sealing. Fluid Transfer.

Gaskets, mechanical seals and hose assemblies for process applications.

KWO
GERMANY

Expanded PTFE sealing

Specialist in expanded PTFE gasket tapes, rings and sheets for industrial sealing applications.

- ePTFE gasket tapes
- ePTFE rings and sheets
- Sealing for flanged connections
- Sealing for glass-lined and lined equipment

www.kwo-ptfe.de

DEPAC
LIECHTENSTEIN

Mechanical seals & packings

Mechanical sealing technologies for pumps, compressors, agitators and reactors.

- Stationary mechanical seals
- Seal supply systems
- Packings
- Hydraulic seals

www.depac.eu

SPETECH
POLAND

Special gaskets & packings

Industrial sealing products for pressure vessels, heat exchangers, reactors and valves.

- Weld ring gaskets
- Lip seals and metal diaphragms
- Lens gaskets and double cones
- Gland packings

www.spetech.com.pl

FLEXTECH
UNITED KINGDOM

Flexible hose assemblies

Engineered hose assemblies for transferring food, beverages, pharmaceuticals, water, fuels and chemicals.

- PTFE and silicone hose assemblies
- Rubber and PVC hose assemblies
- Metallic (316 stainless steel) hoses
- Hose design and asset management

www.flextechhose.co.uk

TECHNOLOGY PORTFOLIO / INDUSTRIAL & PROCESS

Process & Plant Utilities.

Steam, corrosion-resistant handling, sensing and filtration technologies.

VALSTEAM ADCA

PORTUGAL

Steam & fluid systems

Steam and fluid system products for industrial applications, including the ADCAPure hygienic range.

- Steam traps
- Pressure reducing and control valves
- Pipeline ancillaries and heat exchangers
- ADCAPure hygienic products

www.valsteam.com

ANDRONACO INDUSTRIES

USA

Corrosion-resistant handling

Polymer and composite fluid-handling products for corrosive and ultra-pure applications.

- Fluoropolymer-lined pipes and fittings
- Valves, hoses and expansion joints
- Fiberglass vessels and tanks
- Air-driven diaphragm pumps

www.andronaco.com

BAUMER

SWITZERLAND

Sensors & measuring instruments

Sensors, encoders and measuring instruments for factory and process automation.

- Pressure and temperature instruments
- Ultrasonic and optical sensors
- Encoders for motion control
- Image processing components

www.baumer.com

JUNKER FILTER

GERMANY

Industrial filtration

Tailor-made filtration technologies for industrial solid/liquid separation and dust separation.

- Filter bags and filter cloths
- Filter cartridges and candle filters
- Belt filter fabrics
- Dust separation filter elements

www.junkerfilter.de

TECHNOLOGY PORTFOLIO / INDUSTRIAL & PROCESS

Drives & Material Handling.

Power transmission and conveying technologies for industrial operations.

SEW-EURODRIVE

GERMANY

Drives & automation

Drive and automation technologies, from gearmotors and industrial gear units to electronic drives.

- Gearmotors and gear units
- Industrial gear units
- Frequency inverters and servo drives
- MOVI-C modular automation

www.sew-eurodrive.com

HOFMANN ENGINEERING

AUSTRALIA

Gears & precision engineering

Gear manufacture and refurbishment, supported by precision engineering and heavy machining.

- Gears, pinions and girth gears
- Gearbox manufacture and refurbishment
- Precision and heavy machining
- Mill and kiln drive components

www.hofmannengineering.com

SIG CONVEYOR BELT SOLUTIONS

ITALY

Conveyor & elevator belts

Rubber conveyor and elevator belts with textile or steel carcasses for bulk material handling.

- EP and steel carcass belts
- Elevator belts
- Pipe (tubular) conveyor belts
- Sidewall belts

www.sig.it

ZMC

ITALY

Industrial chains

Standard and special industrial chains and conveyor systems for industrial handling applications.

- Standard industrial chains
- Special industrial chains
- Conveyor systems

www.zmc.it

WORK WITH US

Let’s discuss your requirement

For a project package, a replacement component or an operating challenge.

What can we support?

Projects & technical enquiries

Share your specification, equipment schedule or application data.

Replacement parts & maintenance

Send the nameplate, part number, dimensions or clear equipment photos.

Product selection & sourcing

Tell us the duty, process medium and required materials.

To help us prepare a clear offer

Include the required quantity, pressure and temperature (where relevant), delivery location, project stage and target delivery date.
